1932 BRIEF LISTING
HOODACRES

DELPHINIUMS

THE COMPLETE ILLUSTRATED CATALOG
IS ANOTHER PUBLICATION, FURNISHED ON REQUEST
ISSUED IN MID-SUMMER

HOODACRES DELPHINIUMS have been developing over a period of more than 25 years. Remarkable as they are for great range of rarest coloring, variety of floret forms and towering spikes of luxuriant bloom, these features rest on the great constitutional vigor of the strain.

Upon this splendid foundation there has been born at Hoodacres the new race called HOODACRES WHITES—a revelation to the world and the dream of many come true; the most surprising Delphinium development of the century. Plants, spikes and flowers of the same stature and size as the blue forms—double florets of gleaming white throughout, and some with beautifully shaded centers.
